

Wise Purchasing

Sometimes, buying equipment outright is outside of the means of the small or new business owner. Especially when the equipment being purchased loses value at a high rate. It is important for restaurant owners to stay inside of their budgets and manage their money responsibly.

Our lease-to-own program allows you the best of both worlds. You technically own the equipment, while still only making manageable monthly payments. This means that unlike renting the equipment, you aren't locked into a contract with zero tax savings where you are investing in someone else's company and not your own. Have your equipment work for you & invest your cash wisely! Apply for a lease today: stop paying other people and start paying yourself!
